Local Brevities.

—"Hannah, how's your ma?"

—Y. P. A. Benefit Friday night.

—Utica has a Welsh grammar school.

—Lent commences next Wednesday.

—Beautiful Experiments Friday night.

—Mine host Crossett will remain in the Commercial.

—Utica and Rome have been connected by telephone.

—S. W. Goodwin has returned from his vacation trip.

—Charles Dwight, of Syracuse, has divorced his ninth wife.

—A good chance for an investment: Tenement houses in Waterville.

—There are fifty measley deaf mutes in the Rome institute. Lots of fun.

—Cultivate your spring poetry thoroughly—it is almost harvest time.

—Have you found out where you are going to move to in about five or six weeks.

—It is a question with some if Lent can be held this year, with the absolute scarcity of eggs and fish.

—Competition in the sewing machine business is more lively in our village of late than for many years.

—John Evans, who conducts the manufactory of grocer's paper pails in Binghamton, is turning out 5,000 pails a day.

—One of the "tail feathers" to the American wind-mill blew down one day last week, making quite a clatter, but doing no particular damage.

—The Utica Sunday *Tribune* says a patent was issued during the last week to W. A. Lawrence, of Waterville, for the manufacture of hop extract.

—Many more dwellings are needed in Waterville. Several families are now in the anxious seat about where they will move to the ensuing season.

—Small pox is reported at Rome; but there is no danger of its prospering to any great extent there. If it did it would be the first successful affair.

—The lecture delivered by Rev. Dr. Hartley, of Utica, before the Waterville lyceum last Friday evening is highly spoken of by those who listened thereto.

—News reached Waterville to the effect that James Loftus, a Waterville boy, recently took the first cash prize at the freshman prize debate at Amherst College.

—D. Mix, Jr., has been spending the last week in Utica, awaiting the arrival of a load of powder consigned to W. J. Bissell & Sons by the Schaghticoke Powder Co.

—W. P. Locke has purchased of Mr. O. B. Goodwin the so-called Palmer premises, adjoining the Presbyterian church property, on Main street, paying $4,200 therefore.

—The Democracy of Sangerfield will meet in caucus at the Exchange Hotel, Sangerfield Center, Saturday, Feb. 26, at 2 o'clock P. M. The committee requests a general attendance.

—Professor Elroy M. Avery gave his Electric Light Entertainment in Canisteo, N. Y., last Friday night, and had to repeat to an immense audience Saturday night. He can interest and amuse everybody.

—F. H. Terry, M. P. Cady and C. B. Terry have been elected by the Board of Education of Waterville Union School to act as Regents' deputies for the examination to occur at the Academy, March 1—4.

—A young lady at the ball the other evening, when asked by her partner if she could dance the Lanciers, replied: "Naw, I caunt dawnce the Launciers, but my sister Susan dawnces the Launciers, and all the fawncy dawnces." Oh!

—A seven column patent inside and outside quarto, named the *Oneida County Telephone*, has been started at Franklin Iron Works, by John D. Ernst. It is a Greenback organ, and John says, "has come to stay." Success to it.

—The French heel is the latest fashionable folly. It is placed about the middle of the foot and is the size of a man's thumb. Women who wear it are apt to become blind. But when was women otherwise where fashion was concerned?

—The Boonville *Herald* says there are parties contemplating starting a paint factory there. Send them hither, Bro. W., we have a full grown factory, here, provided with sufficient power, tools, territory, &c., which is now idle, and offered for sale.

—Figures do lie, for an example of which notice the load old Zeke was credited with drawing, in last week's TIMES, 57,000! My! that was a load, sure enough; but drop one cipher and place the point one figure to the left, and then you have it, sure.

The Baptist Society of this village are about issuing invites for a donation visit for the benefit of their Pastor, Rev. E. W. White, in the church building, Thursday evening of next week. Refreshments will be served, and a pleasant social time is anticipated.

—Mailiw J. Nworb, fo Acitu, ylnu mrof fo sibt egalliv, saw eht tnwiplcer, uo Yadsout fo tsal keew, fo ynam goirettalf snemilpmoc (ni eht epahs fo senitnelav) morf sih stsoh fo sdneirf ni sibt ytinielv. Rm. B. seshnorp ot etaovpicer nehw Ts. Senitnelav yad sllor dnuora slags.

—We learned Tuesday of the sudden death of Eli Ackley, which occurred at his father's residence early that morning. We have been unable to glean any particulars, but rumor has it that he dropped dead in the barn, and was found there after an absence of some two hours from the house.

—A. & W. S. Pierce have exchanged their pleasant dwelling on Sanger street for property near the Center; the business of the older Mr. Pierce being in that vicinity. It is understood that A. L. Curtis has purchased the Sanger street premises of the parties to whom it was deeded by the Pierces.

—The large Newfoundland dog of W. H. Irwin's has a novel way of disposing of rats and mice that come in his way. He is so large and clumsy that he cannot catch them in his teeth, so he just plants one of his paws on them, and "that settles it." He disposed of six one afternoon in that manner.

—Don't be alarmed, Bro. Merrill; our "assistant" won't bother the columns of the *Standard* to any great extent.—Items of general interest appearing therein are too old, and have too frequently appeared in the columns of the TIMES before "written" by the *Standard* man to be of any particular benefit to us.

—Mention was made in this paper some time ago, of an aged goose owned by William Deyo of Vienna. It has wandered through this vale of tears for thirty-five years past, but now it has "kicked the bucket," and gone dead. This was the oldest American goose we have heard of, although there is said to be one in England 80 years of age.

—As will be seen in a notice elsewhere, Mr. F. E. Wells has placed a stock of Paper Hangings, Paints, Oils, Brushes, &c., in his store, corner of Main and Mill streets,—the old Lumbard stand—which he proposes to mark way down, and *sell*. His stock of wall paper comprises none but the very latest patterns, and he invites an inspection of the same by those wishing to purchase.

—The ladies of the M. E. Church did quite handsomely at their apron festival last week, netting a trifle over $100, and that, too, notwithstanding the inclemency of the weather. All their goods were sold, and many more might have been had they been on hand. Several parties left orders for aprons, which the ladies agreed to fill. The committee in charge of the affair are deserving of much credit for the success both financially and socially of the entertainment.

—Simmons, the barometer man, is having a decidedly fine sale of his instruments hereabouts, although no better, we are informed, than at every point where he stops. Not endeavoring to force a sale, but letting the instrument sell itself, and treating each individual, whether purchaser or not, with the same courteousness, he differs very materially from the usual run of traveling men. We hope he may remain with us many weeks yet, but fear an early departure on business accounts.

—D. W. Johnson, the boss chemist who has presided with sich dignity and dexterity over the sample room of the American hotel for the past two months, took his departure Monday morning last, with "Pittsburgh" in his eye. Although no musicians or wine bottles accompanied him to the train, as on a former occasion they did friend Mackenzie, yet his departure was sadly lamented. His many friends hereabouts and at the Springs hope soon to hear of his being installed as proprietor of a first-class hotel, a position he is well qualified to fill. Hang up somewhere, Dan, where the boys can find you, and you may rest assured of frequent friendly visits.

—Thos. McCraith, the veteran auctioneer, now doing business in our village, was called to Utica recently by his wife's illness, closing his store until his return, as he keeps no help during this unusually dull season. Upon his return he was informed by Wallie Crosby that a man was seen coming out of the store one day last week, and that he (Crosby) had fastened the door to prevent further visits of like character. No goods have been missed by Mr. M., but from out his large stock a shrewd thief might have taken quite an assortment without any one being able to detect the loss without an inventory. Uncle Tom was quite annoyed at first, but says so long as he misses nothing he feels none the poorer.

Profits in Tobacco.

The Green *American* says Mr. Curtis Winston of that town has sold his crop of tobacco for ten cents a pound, to Jackson & King of Binghamton. A crop of tobacco at this price will bring from $100 to $200 per acre. Why don't our farmers raise more of the weed? It will pay.

A New Departure.

Mr. F. E. Wells, having changed his business, hereby gives notice that the Sunday *Tribune* will not be for sale by him in the future, and that after this date the store will be *closed Sundays*. Those desiring his choice brands of tobacco, cigars, &c., for Sunday use, must purchase the same of him during the week.

Peculiar Epitaphs.

Mr. J. Lansing Cady hands us the following verbatim copy of an epitaph taken by himself from a tombstone found in a cemetery at Pawtucket, R. I., a short time since:

"His parents said Wilmott Lace should be his name,
Since then his petition did improve the same.
And after his name was Wilmott De Lacey,
Old acquaintances judgeing,
Was he wise or foolish as a goose?"

And this from a stone found in the family burying ground of Gen. Nathaniel Green of Revolutionary fame, at East Greenwich, R. I.:

"Love was not,
Till noble hearts united;
Nor mankind's noblest being,
Ere love was born."

Please Pay Up.

On account of sickness and other causes requiring an expenditure of funds, I am compelled to call upon those indebted to me for a prompt payment of such claims. I cannot live up on promises, and those who have promised from one to a dozen times to square up, are requested to do so at once.

Respectfully, THOS. MCCRAITH.

More About Reese.

We last week stated that H. G. C. Reese, the bigamist, was in jail at Owego. The Chenango *Union* of the 17th says that "It appears he visited Earlville, his former home, accompanied by the officer who arrested him in Michigan, hoping to procure bail from relatives residing there; but failing in this, he was taken to Owego and lodged in jail. One report is that his bondsmen suspected he was going to jump the country, and wife No. 2 wrote him that he had better come back. He is also reported as having said that no proof of his second marriage can be produced. He is playing the insanity dodge, and to one reporter he said he was a Second Christ, and knew nothing about such trivial matters as court proceedings, deputy sheriffs or State prisons. To another he said he had no knowledge of his case, only that "Jesus loves him," and that "God is very good." Court set Monday of this week, but we have not received any particulars of the proceedings.

A Tripple Wedding Anniversary.

A Paris Hill correspondent says "it was just twenty-five years ago the 12th of this month that Miss Sarah Porter, Miss Nancy Smith and Miss Emma Smith were joined in wedlock, in the same house, and at the same hour to Messrs. S. W. Smith, F. H. Saxton and Ansel Thompson. This was an unusual occurrence, and certainly the celebration at this time was something new and novel, and must have been anticipated with intense interest, if number and resolutions to reach there are of any weight in evidence. Tho' it rained quite steadily and the roads were nearly impassable—and in some places entirely so—owing to the excess of water, yet there must have been fully one hundred guests present, and some of them from miles distant, to offer congratulations, and partake of the good cheer so bountifully prepared. Short and appropriate remarks were made by Rev. J. B. Wicks, J. V. H. Scovill, D. C. Addington, Col. I. L. Addington, F. P. Drew and S. W. Smith. Letters of regret were read; also a poem by Miss Hattie Rogers, of Sauquoit, who was unable to be present. The room was tastefully decorated with evergreens, showing that much skill and labor had been bestowed upon them. The occasion was an auspicious one, and will long be held in plesant and profitable remembrances by those who received, as well as those who gave.

Died.

In Westfield, Medina county, Ohio, January 25, 1881, Mrs. Louisa M. Bennett, aged 63 years, 9 months and 23 days.

Louisa M. Lapham was born in Paris, Oneida Co., N. Y., April 2, 1817. She was one of a family of nine children, all of whom preceded her to the spirit-world except one brother, the youngest of the family, who now resides in Wisconsin. She was married to Samuel Bennett Sept. 27, 1842, and on Jan. 10, 1843, together they started for Wisconsin, a distance of over a thousand miles from the land of their childhood, suffering the privations incident to the mode of traveling to the west at that day. They lived in Wisconsin a year and a half, and then moved to Ohio, and settled on the farm where they have since continued to reside. One of her brothers lost his life by the burning of the steamer "Griffith" on Lake Erie, several years ago. She was also a sister of Mrs. G. C. Morse, who died a few years since. Mrs. B. was never very rugged, and for the past fifteen or twenty years has been an invalid, and many times has been seemingly at death's door. Through all her sufferings she was patient and uncomplaining, and when at last the grim monster came, she was ready and willing to go.

She was warmly attached to her family, and highly prized by her neighbors for her many acts of kindness. She leaves two daughters, one of whom is married to Mr. Lance, and lives at Poe, Medina Co., Ohio, and the other, unmarried, lives with her father at the old homestead.

Mistaken.

The figure-head in charge of the Clinton *Courier* office is not content unless he is rapping somebody over the knuckles, and every week evinces his utter incompetency to conduct a newspaper, or secure additional patronage for the office under his control. Last week he wandered out of his precincts and roped in citizens of Waterville, Deansville, Bouckville, and, as he says, "other villainous places," to attend a cock-fight, which he avers took place in the beautiful village harboring himself, and lasted all night. We know nothing about the "fowl" proceedings spoken of in his article, but are credibly informed by those who do know, that he was either mistaken when he asserted that Waterville parties were present, or that he deliberately misrepresented facts in order to satisfy his insatiable desire to do some one or some locality an injury. If the police force and morals of Clinton are as lax as he would have his limited number of readers suppose, it is about time he devoted a little more space to a decent exposure of the same, and show the authorities having such matters under control how to better things. Should he pursue the course followed by his paper the past year, for another twelve months, we are afraid there will be more places for sale or to rent in that beautiful village than his columns at present indicate. He is continually growling about the limited patronage bestowed upon him, and yet in every issue he takes unusual pains to drive away the little he does receive, and disgust the remaining portion of community to whom he might look for support.

Death of an Old Resident.

The Milwaukee, Wis., *Sentinel* of the 16th, contains a brief death notice of Mr. G. H. Lamberton, formerly of this village, and brother-in-law of Daniel Livermore, Esq., of Sangerfield, which occurred at his home in that city February 14th. Mr. Lamberton, who was 53 years of age removed west a number of years ago, and became an active and influential worker in business and political circles throughout the State. His loss will be keenly felt not only in the city of his adoption, but among a large circle of friends and acquaintances hereabouts.

Fifty Years.

Mr. and Mrs. S. W. Bowen will celebrate the fiftieth anniversay of their marriage at their home at East Aurora, Erie Co., N. Y., April 7, 1881. Mrs. Bowen is a native of Oneida county, having been born in the town of Paris, about three miles from Paris Hill, on the road leading to Waterville, Oct. 26, 1813, in an old red house, where her father, Timothy Putnam, then lived on a farm, which he afterward sold to John Mack and went onto a farm near Paris Hill, where he died in August, 1816. Subsequenty Mrs. Bowen, when a child, went to Aurora with her mother, and lived with Mr. George W. Baker, at whose house she was married April 7, 1833. Mr. Bowen was born in Graftown, Worcester, Co., Mass., Feb. 3, 1806, and went to Aurora in July, 1810, which place has ever since been his home. There are but ten of the invited guests of fifty years ago now living, and two of those are the couple that acted as best friends on that occasion, and are to act in the same capacity once more, after a lapse of fifty years. Timothy Putnam was a brother of the late Nathaniel Putnam of our village, and consequently Mrs. Bowen is cousin to Geo. Putnam, Mrs. P. B. Haven and Mrs. William J. Bissell, all of Waterville.

The Grange Farmer's Club

Met February 19th, pursuant to adjournment, with President Hale in the chair. A very fair attendance, but many too late for the reputation of good farmers. Solomon Hitchcock requested that several varieties of apples be named. Enquiries were made as to the value of ensilage, and a committee consisting of Messrs. C. Baldwin, C. I. Peck and G. N. Locke was appointed to visit Wightman & Berrill, of Little Falls, to obtain information and report to the Club. The query was made whether sowed corn, when half grown, was of any value for fodder when desirous of increasing milk, which was answered in the negative. It was thought advisable to cut the corn when in blossom, when pastures are short, and then, if properly fed, the flow of milk may be kept up and the injury to meadows by feeding thereon avoided.

G. N. Lock's and P. S. Risley's experience in growing and selling the Humphrey hop was good. They advised stringing, and also gave the cluster hop the preference over every variety grown here. Mr. Risley grew last year 2½ acres of the Canada late hops, which were picked the 23d of September, and yielded a good crop and good quality. Mr. Risley gave a minute and valuable description as to grubbing, cultivating, &c., which was closely listened to, and doubtless approved of by all members present. He recommended early cultivation, when the ground was fit—but never when two wet. Thorough cultivation is as good as manure.

The question for discussion at the next meeting is "Hops, Varieties and Cultivation," or a continuance of the subject discussed last week.

Adjourned till Saturday, March 26, at 2 o'clock P. M. Discussion open to the public. O. B. GRIDLEY, *Sec'y.*

To Lyceum Members.

The membership of the Lyceum was not fully represented at the meeting of last Friday, members not then present will hereby consider themselves notified that they are to send either supplies or money to the committee, at the Opera House, on Thursday P. M., between the hours of 12 and 4. Members who have not secured membership tickets for 1881, and who claim the privilege to purchase such tickets, must apply to the Executive Committee before Thursday noon. PER ORDER.

The Lenten Season.

Wednesday of next week being Ash Wednesday, or the first day of Lent, there will be services at Grace Church at 10:30 A. M. and 7 P. M.

As the season of Lent has always been a great important fast of the Christian Church, the services next Sunday are intended to be preparatory to it. The morning sermon will be devoted to setting forth "The Meaning, Purpose and Duties of Lent." The subject of the evening sermon will be, "Business and Religion," or practical thoughts for men. A cordial invitation is extended to all to participate in these services. Seats free, and ushers will take pleasure in seating those who may deem themselves strangers.

"THE ELECTRIC LIGHT."

A Scentific Lecture that the Non-Scientific Can Understand and Enjoy.

The experiments are beautiful; the explanations are clear, full and simple. You will be entertained, you will be amused, you will be instructed. Do not forget the time and place: Waterville Opera House, benefit of Young People's Association of Waterville Union School, Friday evening, February 25th, 1881. Admission, 25 cents; reserved seats, 10 cents extra.

(From the Cleveland Herald.)

It is well known in this city that whenever Professor Elroy M. Avery undertakes an entertainment either for amusement or advancement in knowledge, he makes it a success. His effort here last evening, in a lecture upon electricity, the Electric Light, etc., was no exception to the general rule. There was a large attendance and all, from youngest to oldest, were held with intense interest from beginning to its close, by what he said and the experiments which he offered in illustration of his subject. All in all, it was an evening of rare enjoyment and profit.

The society members now have the admission tickets for sale. Purchasers desiring reserved seats can get *reserved seat slips* at Bissell & Sons for ten cents each, where a plan of the hall may be seen after Thursday, Feb. 17, at 9 A. M.

The Parkinson Divorce Suit.

A decree of divorce has been signed by Judge Merwin of the Supreme Court, and judgment perfected dissolving the marriage contract between Thomas Parkinson and Caroline Parkinson. The action was brought on by Caroline Parkinson as plaintiff against Thomas Parkinson as defendant. The wife's name before marriage was Caroline Belfour, and the marriage took place in England about thirty-six years ago.

After a year or two subsequent to the marriage he left her and came to this country, and, becoming aquainted with Eunice Waldo in this country, married her a few months after his arrival, since which time he has accumulated considerable wealth. In the meantime he has bought and sold considerable real estate Eunice signing the deeds as his wife. The wife Caroline did not know of his whereabouts for about twenty-seven years after he left her, and in 1876 she arrived in this country, going at once to his house in Bridgewater, Oneida County, where he lived. She was not received as a welcome visitor. The first wife retained George Carter, of Utica, as counsel, and the litigation has resulted favorably to her. She will receive alimony as long as she lives, without in any way impairing her right to dower.

Rescued from Death.

The following statement of Wm. J. Coughlin, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our readers. He says: "In the fall of 1876 I was taken with a violent bleeding of the lungs, followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the city hospital. While there the doctors said I had a hole in my left lung as big as a half dollar. I expended over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. I gave up hope, but a friend told me of Dr. Wm. Hall's Balsam for the Lungs. I laughed at my friend thinking that my case was incurable, but I got a bottle to satisfy them, when to my surprise and gratification, I commenced to feel better. My hope, once dead, began to revive, and to-day I feel in better health than I have the past three years.

"I write this hoping you will publish it, so that every one afflicted with Diseased Lungs will be induced to take Dr. Wm. Hall's Balsam for the Lungs, and be convinced that consumption can be cured. I have taken two bottles and can positively say that it has done more good than all the other medicines I have taken since my sickness. My cough has almost entirely disappeared and I shall soon be able to go to work." Sold by druggists. 2aly74

Please Stop that Cough.

Some people say, "I have not got the consumption." That may be, but if you don't stop that cough the time will come when you will wish you had. If you have weak lungs, a cough or consumption, go at once to Jones & Brown, Waterville, and buy a bottle of *Dr. German's Cough and Consumption Cure*; and if, after taking two-thirds of a bottle, you receive no benefit, please return the bottle and get your money, as we sell no cure, no pay. Price 50 cents; large bottles one dollar. 51tf

Walnut Leaf Hair Restorer.

It is entirely different from all others. It is as clear as water, and, as its name indicates, is a perfect Vegetable Hair Restorer. It will immediately free the head from all dandruff, restore gray hair to its natural color, and produces a new growth where it has fallen off. It does not in any manner affect the health, which Sulphur, Sugar of Lead and Nitrate of Silver preparations have done. It will change light or faded hair in a few days to a beautiful glossy brown. Ask your druggist for it. Each bottle is warranted. Comstock Bros., Utica, and C. N. Crittenton, New York, wholesale agents.
