Dear Wilma:

Thank you so much for taking the time and trouble to Xerox the Christian Foulkrod material, and the totally surprising information that a Jacob Foulkrod may be my great-great-great-grandfather! This is where my sense of deduction seems to have failed me. I always thought he was Philip Foulkrod, Jr., the son of the first Philip to come to Philadelphia back in 1744.

Now, I've got an off-the-wall joke going around that Jake, The Genealogy Dog (remember him from last year??) is really a reincarnation of Great Grandfather Jacob Foulkrod. You can take that one for what it's worth!!

YES, I DID BUY A GATEWAY COMPUTER TWO WEEKS AGO!! However, I am so far behind in trying to clean out my dining room which is filled with books that are being packed up and given away to a local library that it will take me another week to get the computer set up. Also, AMERITECH (our exasperating local phone company!) can't get in to install a second phone line for the computer until the middle of October. You may have read in the Harrisburg newspaper or heard on your local news that AMERITECH is being fined thirty million dollars for their poor service. It has taken as long as two and a half months to put people on line. AMERITECH claims they are short 1000 technicians. The phone company technician is supposed to be at my house on Friday, October 13 - we shall see! However, some time in the not-too-distant future I will be set up and able to E-Mail. When you get the chance, please drop me your E-Mail code and you will get a message from me saying that all is now well.

Again, thanks for taking the time and effort to mail the Foulkrod information to me!

Sincerely,

Donna Fulkrod
