Oct. 19, 2000

Dear Ms. Keal,

After researching our files and visiting the lot 511 C W , I have come up with following information for you. It appears that many of the burials on that lot were made before 1900 which leaves us with very limited or no records at all. The only burials on our computer are those of Jacob and Mary Jane which I have included the information we have on the lot plan below. The other information for Phillip and Ida Lee is only available from the grave marker. Our records indicate that the lot was originally purchased in 1891 by a Georgiana Chisler and transfered to C.E. Fulkrod of 97 Gorton St. Corning, New York date unknown. It appears that several burials were made before the lot was actually paid for. Our records indicate three other burials on that lot as follows: Kate M. Chisler 12/21 1880 : Child of John Chisler 5/22/1881 and Allen D. Fulkrod 5 Mo. 2/18/1879. As you know ther are no markers for these burials. It would also appear that there are 3 additional graves on this lot as it was purchases as a 10 grave lot, but there is no indication if there are any burials on these graves or not. I hope that this bit of information was of some use to you and again I need to explain the lack of accurate records available to us for these early dates.

Sincerely,

Paul R. Novak
 Office Clerk
