Graduated BSc Forestry ANU 1997.

Seedsman Consulting was established to provide a comprehensive range of services to the natural resource management(NRM) sector. primarily focusing on resource analysis and environmental education SC utilises its technical expertise in resource analysis and environmental education to assist clients in their management decisions and to achieve sustainable outcomes.

Seedsman Consulting's principal is Peter Lezaich. Peter has over 13 years experience in the Forestry and Natural Resource Management sectors, with a primary focus on resource measurement, mapping and analysis. This includes:
- Forest measurement
- Forest survey and mapping
- Flora assessment
- Fauna assessment
- Stand structure mapping
- Habitat modelling, and
- Carbon Accounting

Seedsman Consulting use a variety of industry standard tools and methods including:
- Geographical Information Systems (GIS)
- Remote Sensing Systems
- MARVL style forest inventory (Plantation and Native Forest), and
- The National Carbon Accounting Toolbox, including the FullCAM model

Seedsman Consulting also provide a range of in-house developed tools for forest inventory, growth and yield modelling.
Business address: 31 Kambalda Crescent, FISHER ACT 2611
