MILK PRODUCERS HOPEFUL.

Speaker from New England Association Tells Them to Hold Together.

Milk producers in this locality are much encouraged in their stand for a higher price for milk wanted by Boston dealers, especially since the meeting in the town hall Tuesday night when 50 producers were addressed by Frank Northrop of Ludlow, president of the Vermont Dairymen's league.

Mr. Northrop reported that the supply of milk in Boston was the shortest Tuesday that it had been at any time since the demand for more pay was made, and he urged all to join the league, which most of those not already members of the league did.

Secretary Pattee of the association recently reported to the United States department of justice that Boston dealers were making milk of milk powder, and under the Pure Food Act they have been notified that it is illegal to do so, which will cut down the milk supply materially.

A representative of the Brigham Co. of Boston, which is controlled by John K. Whiting, offered on Tuesday to pay 42 cents a can here, for one month, which is only a cent less than is demanded for six months.

The Halloween social and box party at the West Hill schoolhouse Tuesday evening was a success in every way, a company that taxed the capacity of the schoolhouse being present.

Much credit for the success of the social should be given to Miss B. E. Eaton, who furnished the entertainment and whose interest in the socials and religious services is much appreciated.

Street Car and Horse Collision.

An automobile driven by Walter B. Glynn of Saxtons River struck a carriage driven by Dorr Thayer of Bellows Falls about 6 o'clock Sunday night near the Sabin bridge in North Westminster.

The harness broke and freed the horse which ran nearly a mile. When opposite Albert Ramsey's house in Gageville it jumped directly at an electric car, the car and the animal meeting head-on.

The steel front end of the car crumpled like paper and John Dunbar, motorman, was pinned between the dashboard and the front door.

Car Pinned Man Against Wall. The fourth automobile accident in four days occurred about 2:30 Monday afternoon when an automobile driven by D. H. Cushman, manager of a local hotel, struck Mark Sibley, a fireman at a local paper mill, fracturing his leg in two places below the knee.

Sibley, who came here a week ago Sunday from Barre was standing looking in the square. The automobile got beyond the control of Mr. Cushman and jumping the curbstone, pinned the victim of the accident against the building and driving his body through a large plate glass window.

Sibley's left leg was fractured and his right hand cut by the glass. The machine was not damaged.

EDUCATIONAL SYSTEMS.

Present Methods of Training Need Revising Badly. We seem to cherish the agreeable hypothesis that all our boys and girls grow up equal, that all are first-class, and all alike fitted for the intense and varied requirements of modern life.

The disparity between what we wish for and what we get comes out soon enough but not until the results are past remedying or, if remedial, have already involved great economic loss.

The proof of the error in our original hypothesis is furnished by the large numbers of persons who fall hopelessly, by those who waste time and money in changing occupations before they find one suited to them, by those who never find occupations in which they do well enough to be entirely independent.
