

## **The Christian – Hans Jerg- Marx Voßeler connection**

As outlined in the Otto Benzing document  
"Unsere Vorfahren in Schwenningen und auf der Baar"

Fellow researchers,

I have spent the past several months studying the Tuningen parish records from ca. 1650 to 1800. I also recently was provided with a copy of the Otto Benzing work "Unsere Vorfahren in Schwenningen und auf der Baar". I have found a couple of places where his conclusions and mine differ significantly. I am forwarding this to those of you whom I know have access to the Benzing document and/or the Tuningen parish records and may want to give an opinion on the matter.

The first instance can be found on page 12, Christina Hauser person 45 of the Benzing report. Hr. Benzing has her born 7 Apr 1709 in Tuningen - the daughter of Jacob Hauser and Barbara Barrho. The death for her is 1 Dec 1776 in Tuningen age 65 Jahr weniger 2 monat. A close look at the marriage entry for Christina Hauser and Jacob Vosseler on 2 Mar 1734 shows her father to be Joh. Hauser schreiner. There is a Maria Hauser daughter of Johannes Hauser schreiner and wife Maria born 20 Feb 1712. This birth fits perfectly with the death information.

The second discrepancy can be found on page 13 of the same document and is outlined in the attached document.

Any comments are welcome,

I believe there is some confusion on this lineage as outlined in the families below

A red asteric \* indicates a date found in the Benzing outline

You will note two Christian Vosselers of contemporary age each marry an Anna and have a son Hans Jerg both of whom marry a Maria. Confusion is understandable.
