The problem of the city council is to provide services and the park and maintenance of a certain area of the city. In the past, there was a lack of coordination between the city council and the department responsible for the parks. The council has taken steps to improve this situation.”

May 24th, 1982

In the meeting of the council, Mr. Anderson and Mr. Thompson were present. After the presentation of the financial report, the council discussed the need for the city to expand the park area. Mr. Thompson suggested that the council consider the possibility of acquiring additional land for the park. Mr. Anderson agreed with this suggestion and added that the city could also consider using some of the city's vacant land for this purpose.

The council also discussed the need for improved maintenance of the existing park areas. Mr. Thompson suggested that the council consider hiring additional staff to handle this task. Mr. Anderson agreed and added that the council should also consider the possibility of increasing the budget for maintenance.

The meeting adjourned at 8:00 PM.

The city council meeting was held on May 24th, 1982. By Robert Thompson.
