They say, “and have it too.”

And since I took an ocean trip,

The new and unusual—that sparkling reality which is known as the life of each school year—is caught and held forever within the pages of Bureau built annuals. The ability to assist in making permanent such delightful bits of class spontaneity rests in an organization of creative artists guided by some 17 years of College Annual work, which experience is the knowledge of balance and taste and the fitness of doing things well. In the finest year books of American Colleges the sincerity and genuineness of Bureau Engraving quality instantly impresses one. They are class records that will live forever.
