

THE ATCHISON DAILY GLOBE.

PRICE TWO CENTS.

ATCHISON, KANSAS, WEDNESDAY, MAY 29, 1889—SIX PAGES.

TWELFTH YEAR NO 4,581

In the Supplement with this issue will be found a page devoted to Memorial Day, and a piece of music appropriate for the occasion. Correspondence and miscellany on Second page; Telegraph news on Third page.

The recent rain extended all over the Central branch west.

This dull, damp weather gives every one the blues, with the exception of the sky.

The owner of a rose is compelled to go to great deal of trouble to take care of it. His Texasdale will take her school children to Deer creek on a picnic tomorrow.

An Atchison man who is making \$30,000 a year visited New York for the first time last week.

S. H. Clark was in the city this afternoon, and B. P. Waggener accompanied him to Leavenworth.

The piling has been completed on the opposite side of the river. The mattress and some filling is yet to be done.

It turns out that Henry Palmer, who was stabbed Monday by Wesley Withers, is still alive, and may recover.

By special request the Knights of Pythias have agreed to furnish the float as a guard of honor to the float in tomorrow's parade.

Dr. Alderman says that when the weather is bad, as it was yesterday, the Marshall medals will be held in the Kansas avenue Methodist church.

Most of the children of the city are billed for a picnic tomorrow, and are anxiously watching the weather.

Doc Marshall, who comes from Missouri, refers to the Marshall revival as the "camp meeting." By-the-way, he has a very startling theory regarding the camp meeting.

The strawberry festival which was held last night on account of the rain, will take place at St. Andrew's mission, in West Atchison, to-night. Everybody is invited.

Only about one-half as many deaths have occurred in Atchison this year as had occurred in the corresponding date last year. The undertakers' reports show this to be a fact. Atchison is a healthy place to live.

The Glazier-Burnes foreclosure conference has been settled, and C. W. Burnes again owns the house at the corner of Eleventh and Santa Fe. S. B. Glazier, clerk to Burnes, and Burnes surrender the notes he held against Glazier.

A Missouri fisherman accounts for the strange absence of fish in the Pass this year by the fact that there has been no high water in the river this spring. After the water rises, the fish will rush into the Pass as usual. There is nothing for fish to feed on in the Pass, which is again responsible for the absence of big catches.

The Atchison base ball club will cross bats at Prospect park tomorrow afternoon at 6 o'clock, with the St. Joe Reds. The game will no doubt prove interesting. A portion of the grand stand will be reserved for ladies, who will be admitted to the grounds and stand free of charge if accompanied by escorts.

The graduating class of the Atchison high school will appear before an audience at the theatre on Friday evening. Rev. Renz will deliver the graduating address, and Young's orchestra will furnish the music. The following young ladies will graduate: Marguerite A. McCormick, Mary A. Fisher, Edith L. Patton, Helena C. Cooks, Margaret L. Knoff and Nellie E. Henderson.

Two Nortonville men started home on the Santa Fe train last night. At Parrott one of them missed his friend, and supposed he had fallen off the train. Word was sent back to Atchison, and the night yard crew ordered to look him up. After a search of three hours the switch engine returned unsuccessful. This morning the missing man, who is a young harness maker, turned up all right. He had stepped off the train at Tenth street, and got left.

The venerable James Martin, who has been ill for so many months, was brought last night at 10:40 last night. He was conscious until within a few hours of the end, and at 6 o'clock was able to recognize those around him. He passed away peacefully. The deceased was in his 86th year. He was a native of Maryland. His memory went back to the beginning of the century, and he distinctly recollected the year of 1812-14. As a boy he saw American soldiers march past his father's farm to the defense of Baltimore and Washington. He talked of Washington and the revolution, as the boys and girls talk of Lincoln and the rebellion. He was an interesting character, and was possessed of a fund of history which he was wont to relate in a quiet, matter of fact way. The deceased was survived by his wife, who is also advanced in years, nearly the age of her husband. He also leaves five children, John A. Martin, Wm. Martin, Mr. B. Martin, Mrs. T. C. Smith and Mrs. F. D. Mills. Wm. Martin lives in Wyoming. One son perished in the late war. The funeral will take place tomorrow evening at 7 o'clock, from the home at the corner of Tenth street and Kansas avenue.

The Western Union has notified the telegraph trade of the country that it will not furnish the markets from Chicago after May 31. This is on account of a recent decision of the supreme court of Illinois, that if the Chicago board of trade makes its reports it cannot refuse to furnish them to any other party who desires to use them in a lawful manner. As the board cannot exercise its option in the matter, it will stop furnishing all reports. This decision will not affect the Atchison board, as a member of the Chicago board, and entitled to the reports. It will, however, knock out the small bucket shops of Topeka, Wichita, Leavenworth, St. Joe, and Lincoln.

The children's meeting announced last Sunday for next Sunday in the Munhall hall has been changed to Monday afternoon at 3 o'clock. Dr. Munhall will build for the children on this occasion that promised house. On Sunday afternoon there will be a meeting for young people between 12 and 25 years of age, lasting from 3 until 4 o'clock. Next week, probably on Tuesday, there will be an all day meeting, lasting from 10 a. m. until 4 p. m.

The returns of the county assessors on personal property valuations are now all in. The total of personal property in Atchison is \$856,920, of which \$250,630 is credited to the county, and \$606,290 to the city. Last year the county was credited with \$223,140, and the city with \$334,950. The country this year gains \$30,320, and the city loses \$109,140 less than last year.

Dr. Munhall will close his work for the season with the Atchison meetings. He will then go to Philadelphia to visit Mrs. Munhall and the children. During the summer he will be in the pulp of St. Paul's Methodist church of Newark, New Jersey, while the regular pastor takes a trip to Europe. In August arrangements for the next year's work will be made, and meetings begin again in September.

Peremptory Call!
All comrades of Atchison Legion No. 18, Select Knights of America, will assemble at our hall tomorrow, (Thursday) at 1:20 p. m., sharp. No excuse for absence will be accepted. By order of H. M. ENST, Commander.

REV. DR. L. W. MUNHALL.
Rev. Dr. L. W. Munhall, who is just now engaging the attention of the Atchison public, is 46 years old. He has been in the ministry and engaged in evangelistic work fourteen years. Previous to his ministry he was a practicing dentist. Dr. Munhall has preached in Europe and America, and is one of the most successful evangelists of modern times. Dr. Munhall lives in Philadelphia. His wife was a Miss Mary Thomas, and he married her in Indianapolis. Dr. Munhall will preach twice a day in the big tent on the Chalmers court house lots for the next three weeks.

County Clerk Krebs has figured up the returns of population made by the assessors. The returns are grossly incorrect, but there seems to be no remedy for it. The total population of the county as reported by the assessors is 29,967. This includes the population of the city—17,029—returned last year, the assessor failing to make any return of population this year. The country assessors make returns, but they are only guesswork. In the township of Grasshopper, the assessor returned last year 1,922 persons; this year but 888. He does not name a single person in the town of Muscatell in his report. This illustrates the carelessness of assessors in the matter of population, and they are paid for such work, but they do not do it.

"Who," observed Dr. Munhall this morning, as he opened the last box in the tent, and glanced over the names of wicked persons for whom prayers were taken in his face saddening as he counted of nineteen slips of paper containing the name of one citizen, carefully noting the earnestness of the different appeals, "is this man Charley Parker?"

The fellow Gladden, who was released from the insane asylum when Fred Fiss was admitted, and who is now in the county jail, is worse than Fiss, and kept all the inmates of the jail awake last night.

CURIOSITIES OF STRIKES.
A Philadelphia brewer wouldn't let his employees drink beer during working hours and the men all quit work. They are back now and drink all the beer they want.
Factory girls in a Massachusetts woven mill laid off some time ago because the foreman persisted in keeping a picture of a white horse on his desk. Two of the girls had hair which was decidedly Auburn in color.
Ten men employed in a tanning factory at Wrentham, Mass., with an immense load of dirty water, "Let's put the seal in the soap," said the crowd. The crowd took up the idea with enthusiasm and took the police five minutes to keep it at bay while the "seal" was fastened off out of sight.
Just before the coroner's case for the performance of "Provotors" in Allin the superannuated—thirty in number—announced that they would not go on unless the wages were increased one-third. The management promptly went to work and made fifty-five minutes had thirty raw recruits from the streets at the stage door. On seeing those the regular super, who had on their stage costumes, made a rush and scattered out into the street. For half an hour they were chased by the officers of the theatre, who finally snatched their willingness to come to terms. Chicago News.

THE TRUTH OF THE MATTER.
Once a pleasure loving Tatum put his Sunday go to—suit on, and he started for a frolic in the good neglected road. He was enjoying himself very much, and he was wondering when 'twas over what he next had better do.
But his mother's indignation was aroused by a vision, and as one the other creature seemed comparatively crude.
"Treat that grat exhibition of conceit and insolence, that from poverty of language we are forced to call a 'Duck.'"
But the Tatum, unacquainted with the genius, nearly faint, could that be a human being who opened his teeth, "Duck in human, verily do I hope for der money had exchanged."

CYRUS BAKER'S COURTSHIP.
So ye ast her, did ye, Cyrus? An' she answered with a "Yes"
An' ye think the world is sandy desert wilderness of woe,
An' the world is full of grain an' the air is full of peace,
An' there's no blessed star an' hope peeps over yer horizon?
An' the party smaller' roses look like tooses on a laurel,
An' the joy in this probation you are findin' yer share,
An' the hidious sin'ful stripes to the car ye wear
Cyrus Baw, an' ye're ready for the under-
Cyrus Baw, yer ast, that, an' ye couldn't wed the better?
The joy ye'd find in the gas yer job ye keepin' at yer
An' the party dearer an' curer—this is just the way it is
That the party dearer an' curer, but ye've got to make 'em do it.
Don't hang round a lookin' lonesome as an icicle in June;
An' ye'd jangle 'thor' the world, a siddle out in time;
An' ye'd ast her now an' then, but don't get yer sentiment;
But drop in once or twice a month, as if 'twas accidental.
But don't ast her 'bout an' don't hang round an' laun her,
An' don't say any words ye hev, however much ye want her,
An' don't say any words ye hev, for Nancy can't stay yearnt,
An' her 'next time she'll say "Yes" so quick that ye'll be overpowered.
An' then the universe'll be brim full of ye an' yer prison,
The sky will be a tower patche' thick full of stars
An' the sky will be a siddle playin' tunes upon the house-top,
An' he'll play his jollist music w'en ye an' Nancy see.
—F. W. Foss in Yankee Blade.
