Dallas Dresses Up

BEST DRESSED AMERICA

Many of the garments this family is wearing, from daughter's perky coat to mother's smart hat, were manufactured in Dallas. Seventeen years ago this wasn't so, for the fashion manufacturers numbered approximately 97. Today this number has skyrocketed to more than 180... a 200% increase in less than two decades. The "Texas" bank, which has helped write this fashion success story, has had spectacular growth, too, in its seventeen years of existence. Back in 1930 the total resources numbered \$959,823.26; today, the total resources are \$19,148,808.89... an increase of 1,979%. Located in the heart of Dallas' thriving industrial center, the "Texas" is showing the same expansion and progress.
