Myron Robbins,

Muncie, Ind.

May 6, 1955

Dear Helen,

Many thanks for your commencement program we received a few days ago.

We are glad you have always had such a good school to go too and here finished high school, and it would be nice if you could make something out of your schooling.

I hope you will not forget your father who has worked lots of days, when he wasn't able so you children could have the things you have needed and wanted.

Wednesday morning we were looking at television and saw you interviewed by Hal Dimms. Could see and hear you as well as if we had been there.

It was quite a thrill for me and I know it was for you

We want to give you a little
something, but as we do not go to town
very often and don't know what you
need or want will send you the money.

Hope it gets there O.K. It isn't very much
but maybe you can get something with it.

We both wish you all the happiness and
good fortune you can get out of life.

Have a good time while you can,

Love

Your
Grandfather and
Grandmother.

Monday morning.

We got one letter from Junior while he was in the hospital, in March, but haven't heard from him since. I answered him and Esther has written to him three times without an answer. I hope he got better and able to go back to whatever he was doing. Expect he has found out he has gotten into something pretty serious.

Yer Grand father has been pretty sick but is lot better to day. The Dr. was here yesterday and isn't coming back unless we send for him. He still has asthma + sinus trouble. Has been having rheumatism in one leg for some time, then last week he had a blood clot in the other leg. That is gone now and he feels better every way so we are feeling much encouraged this morning.
