

Printing the A5 format reader aids booklet for the 1934 edition of *A Little History*

1. Print the odd numbered pages in the .pdf file first (1,3,5,7,9,11).
[Ignore the page numbers visible in the top corners of the different pages].
2. Without changing the order or orientation, turn all the pages over and replace on printer intray.
3. Print the even numbered pages in the .pdf file (2,4,6,8,10 and 12).
4. Carefully fold the A4 pages down the middle and staple if required, to produce an A5 booklet of the indexes and glossary.

In doubt about these instructions? As a trial, print page 1 only of the Acrobat Reader (pdf) file, turn over, and print page 2 on the back.
