Magazines also carried employee promotions, retirements and deaths in regular columns, "Promotions, Honor Roll" and "In Memoriam," which could help researchers, if employees being investigated worked between 1925 and 1974. Some company officers, department heads, line officers and supervisors were also covered in short biographical sketches at the time of (or on the occasion) of their promotions, retirements or deaths. A biographical index is included with the L & N topical index (for major L&N magazine stories) (Box 216).

## **Government Agencies**

### **U.S. Department of Transportation ICC Historical Railroad Investigations Reports 1911-1994**

Reports of accidents investigated by the Interstate Commerce Commission. Reports contain employee last names through about 1946. Records in the custody of the National Archives: <https://www.archives.gov/research/transportation/railroad-accidents.html>

Records online at:

<http://dotlibrary.specialcollection.net/>

(Note that the above link has not been working throughout 2018 and may have been removed.)

Other accidents may have been investigated by state bodies such as public service or railroad commissions or departments, and records may be in custody of individual state historical societies.

### **U.S. Railroad Retirement Board**

From the RRB's website: "The U.S. Railroad Retirement Board administers a Federal retirement benefit program covering the nation's railroad workers. The records it maintains deal primarily with the administration and payment of these benefits. The Board will provide information from its records on deceased persons for the purpose of genealogical research. However, it will not release information on persons who are still living without the written consent of that person.

The Railroad Retirement Board, like the Social Security Administration, was not established until the mid-1930's, and it began maintaining its own records of all covered rail service in 1937. Therefore, the Board's service records are limited to individuals who worked in the rail industry after 1936. If a person was not actually working for a railroad after 1936, he or she would not be listed in these records. Nor would the Board generally have any pertinent records of persons whose rail service was performed on a casual basis and/or was of short duration. Also, the Board's records are only on persons whose employers were covered under the Railroad Retirement Act. Employers such as street, interurban, or suburban electric railways are not covered under this Act."

Some records are held by the National Archives and Records Administration (NARA), including work the RRB did early on to establish prior service records of employees. RRB will make the referral if NARA holds records that may be of help.

### National Veteran Employees Associations

The National Association of Retired and Veteran Railway Employees ([NARVRE](#)) is a membership organization open to railroad employees which primarily follows issues surrounding Railroad Retirement. Organization has been by local chapters in the past.

Unit 52 was active in the Albany, NY area, and the roster below lists members reported to have worked for the following railroads: the NYC, Boston & Albany, Boston & Maine, Delaware & Hudson, Rutland, Troy Union, New Haven and Erie railroads, as well as the Railway Express Agency and Pullman Standard. All members were at one point operating in the Albany area. From a handwritten member list with numerous illegible entries, so some spellings are best guesses. Dates from 1956 through 1970. 1,374 records. From the webmaster's collection:
