# Preface

This document on the descendants of Thomas Fearebay was one of the most difficult to develop as the surname was very difficult to determine as it kept changing from one spelling to another. See notes for variations in spelling over time.

An additional chapter includes the descendants of Daniel Mathews, first husband of Hannah LNU.

To all the descendants of this family, this is your book not mine, as it will keep growing only if you send update information that adds to what is already known.
