Final Version

Introduction

This is a final version of the eBooks that have been available from my website as the genealogy program that I have used to produce these books has reached a limit and can no longer be extended or corrected. However, I still keep doing genealogy but have to use a different version of the software but it does not have the capability to produce eBooks. In the future, I may have to change to a different genealogy program that can produce eBooks but I cannot depend on that happening.

All I ask is that you point out the errors and send updates and corrections to the following address:
