Preface

This book is a first version of the Descendants of a non-existent figure head shown as (00Root-Sparmann/Sparman. The root notation is only used to allow several branches to descend from the root where the relationship between the different branches is unknown at the present time.

Branch-One is the one that is of major concern for the present time as the descendants of Gottlieb Sparman(n) were from three daughters. The eldest daughter, Albertine Henrietta, married Julius Krueger and his descendants are mainly in the USA. The second daughter, Alvine, married a Ludwig Thiel in Jan. 1879, was divorced from him by 1880. No further information has been found on her descendants. The third daughter, Emilia Ottelia, was my great-grandmother and her descendants came mainly to Saskatchewan, Canada, and have spread out from there.

Since the Sparman line appears to be closely connected with the Krueger line, additional chapters on the descendants of Johann Krueger are included as Carl Julius Krueger married Henrietta Sparman.

The individual chapters in this book show the descendants of these daughters.

A new chapter has been added the descendants of Ottillia <Sparman(n)>, wife of Benedict Werdich. The surname of Sparman for Ottillia is based on Family Finder results for a Jon Velikanje who is a 4th cousin to me(Arnold Krause). This relationship is via the Sparman/Zielke line and the only way that we can see how this may fit is to have Ottillia as a sister to Gottlieb Sparman. The name Ottillia/Otilia occurs as a middle name for my grand-mother and great-grand-mother. This was one of the main items that gave a clue as to the maiden name of the Ottillia, wife of Benedict Werdich.

Introduction

The introduction is being left blank for now and other members of the research group working on the descendants are requested to forward information on their line for inclusion in this introduction.

If you have interesting notes and/or stories then send them to me by email and I will use copy and paste to include them here.

Generation 1

1. **BRANCH-ONE¹ SPARMANN** . He died on Dead.
Branch-One Sparmann had the following child:
 - +2. i. ?-1² SPARMAN (son of Branch-One Sparmann). He died on Dead.

Generation 2

2. **?-1² SPARMAN** (Branch-One¹ Sparmann, Branch-One¹ n). He died on Dead.

Notes for ?-1 Sparman:

The descendants of this Sparman line show two children, one is a son and the other is a female, this child has descendants who are the ancestors of Juliane Krueger who married Gottlieb Sparman. This means that Juliane Krueger and Gottlieb Sparman were second cousins. This is proven from the Family Finder DNA test results that show Jon Velikanje as a 3rd cousin - 5th cousin to Arnold Krause while Jon is shown as a 2nd cousin - 4th cousin to Steven Allen Krause who is a 1st cousin once removed from Arnold Krause. The reason that Steven shows a lower set of generations is that his grand-parents were first cousins with their ancestry coming down the Zielke/Sparman line. Since this reduction in the number of generations was caused by intermarriage, this same thing must have existed further up the ancestral line to make Arnold to be shown as a 3rd - 5th cousin and not a 4th - 6th cousin as the paper trail shows.

This is a bit of speculation as to the exact connections from Juliane Krueger back to the common ancestor on the Sparman side but it is known that it is two generations from the data from the Family Finder results. This relationship is shown in the following link:

[Ancestry diagram to show possible connections.](https://freepages.rootsweb.com/~aek740/genealogy/Sparman/Possible%20ancestry.pdf)

Chromosome Browser results for three persons who are descendants of this line are shown in the following links. The persons identified as AEK and SAK are descendants of Gottlieb Sparman and Juliane Krueger. SAK is a first cousin once removed from AEK. The person shown as JV is a descendant of Ottililia <Sparman> who is assumed to be a sister of Gottlieb Sparman.

[Chromosome browser results for AEK compared to SAK and JV.](https://freepages.rootsweb.com/~aek740/genealogy/Sparman/aek-sak-jv.jpg)

Another diagram showing how the Chromosome Browser results for JV as the base person and AEK and SAK as the persons being compared. These results will be posted once I receive the chart.

This Sparman family is not that of the Gottlieb Sparman shown here. However, it is felt that they might be related and their inclusion here is justified. See Branch-Two Sparmann.

Info from ship list:

Ship: Anna Lange

Port of Embarkation: Bremen

Date of Arrival: 16 July 1857

Final Destination: WI

Purpose for Travel: Staying in the USA

Julie, 13, b Prussia

Amelia, 11, b Prussia

The father of this family is Gottlieb Sparmann, b Prussia, and lived in Princeton, Green Lake Co., WI. Gottlieb was 59 years old in the 1870 census. This might be the same person as the Godfrey Sparmann shown in the 1860 census as the children show similiar names. Ages of children do not match but this might have been caused by giving the incorrect ages when travelling. More research required(AEK).

From the age of Gottlieb it would appear that he might have been married twice. If so, did he have any children with the first wife, and who are they?

Notes for Juliane Albertina Wilhelmine Krueger:

Arrival of Juliane in America:

Ship List

Ship: Clara

Port of Embarkation: Bremen

Arrival Port: New York

Arriv. Date: 4 Oct. 1862

Purpose for Travel: Staying in the USA

Generation 5 (cont.)

Final Destination: WI

Juliane Sparmann, age 32, b Prussia, going to WI

Juliane Sparmann, age 21, b Prussia, " ***** is this person a daughter of Branch-Two Sparman(n) If so, then Gottfried and Gottlieb Sparman were most likely brothers. ***** ??????

Henriette Sparmann, age 9, b Prussia, "

Alw(v)ine Sparmann, age 2/12, infant, b Prussia, "

These four Sparmann names appear to be from the same family group as they all give the same info on "Purpose for Travel" and "Final Destination". The main question is: "What is the relationship of Juliane Sparmann, age 21, to the other members of the group?". Was she a daughter of Gottlieb from a first marriage as subsequent Census in WI show Alvine as the daughter of Juliane, age 32, from the ship list.

The question raised by this data is "Who did August Zielke marry"? From the dates of birth it would appear that he married the older daughter!!!. This is a puzzle, more research required.

Notes for August Zielke:

Entered United States via Port of Baltimore Nov. 18, 1871. Name changed to Zilke from Zilke by son Adolph. Now they go by the name Zilke. Grave stone at Bethany Lutheran church, Parkbeg, shows the name of August Zilke.

The confirmation certificate for son Emil Julius is shown as Emil Julius Zielke. This indicates that the name has been continually changing from Zielke / Zilke / Zilkie.

The Marriage certificate for August and Emilie Sparman also indicate that the name is Zielke as the father's name is John Zielke and mother Wilhelmine Zolke.

This connection of Ottillia <Sparman> is based on Family finder DNA results and the fact that the decendants of Gottlieb Sparman have the first or second name of Ottillia/Otilia. The descendants of Gottfried Sparman also have the name Ottillia/Otilia which is even more evidence. More research needs to be done on this but it is a start.

Any person who is a descendant of this line may find some photographs of their ancestors in my Unknown photos section. These photos came from my grandmother's home and may shed some light on her relatives.

This might be the same person as the Godfrey Sparmann shown in the 1860 census as the children show similiar names. Ages of children do not match but this might have been caused by giving the incorrect ages when travelling. More research required(AEK).

From the age of Gottlieb it would appear that he might have been married twice. If so, did he have any children with the first wife, and who are they?

The only document that I had that showed where my grandfather, Carl Gustav William Krause, was born was a Nonresident Alien's Border crossing Identification Card.

Many people are having great difficulty finding the place where Carl Gustav William Krause was from, according to the Hamburg Ship List. The following link shows a section of a map (GrosBlatt 40 Neustettin - Flatow) and GrosBlatt 41 where the two maps join.

 Map section showing where Branch-One-A was from in West Prussia. The small circular dots with 518 is for the descendants of Johann Krause and 517 for Herman Krause. The other dots are for different Krause families who have proven to be DNA-cousins after 37-Marker Y-Chromosome tests were done on living male descendants of their lines.

Another link with several other maps that show where the Branch-One Krause Roots came from in West Prussia may further aid those who are having difficulty in finding this area. Just click on the icon on the right side to view the map or document. The maps included in this summary include the one in the link shown above.

One item that helped me in my search for my Krause ancestry is a bit convoluted but gave an essential piece of information. My grandfather, when asked the name of his father, did not know his name but remembered an Uncle John who had moved away to another state and was never heard from again. When my grandfathers older sister was married, her marriage documents shows that Johann/John Krause was her father. The person who moved to a different state was Herman Krause and his family. Both Herman and my grandfather with his mother and her second husband, Hans Heinrich Wilhelm Knickrehm moved in 1887 to different states, Herman to Wisconsin and Henry Knickrehm to Minnesota and that is how they lost touch with each other. The essential piece of information here was that Herman and John were brothers. Autosomal DNA testing has shown that according to the amount of shared DNA for the descendants of Herman and John, they may have been half-brothers. It is being assumed that they were full brothers.

Generation 2 (cont.)

When my grandfather was asked if there were any Krause relatives that stayed in Germany, he stated that they were coming to America but the ship sunk at sea and all were lost. Hearing this, you didn't ask any more questions.

1926 Census, Wheatlands RM, MooseJaw Dist, SK, Dist 27-35, p4, family#45, age 11

The following is information that I was told by my father, Edwin Krause:

This entry of John Krause as the father of Albert is based on the following:

One day in 2001, my father, Edwin, told me that Albert was not his brother but was his half-brother. I didn't say anything, just listened. A week later he said the same thing and this time, I asked him how did he know that. His reply was that his sister, Annie, had told him. As she had seen the hired man creep into the bed-room when my grand-father was away in hospital. I didn't ask anything more and Dad didn't offer anymore explanation.

This seems hardly plausible as Annie would have been only 18 months old and would have been too young to remember this event.

When it came time for Y-Chromosome DNA testing, I didn't include the descendants of Albert at first as I was unsure about the tale that I had been told. Finally, I had Steven Krause tested and his Y-Chromosome results showed that he was a closer match to my Krause line than even what I was as I had a mutation that was unique to myself. If the tale is true then this mutation was either my Grand-father, Father, or me. If the tale is false then the mutation is either my Father or myself.

My Grand-father had been kicked by a horse that hit him in the groin/crotch area. This may have caused great damage and he was unable to sire any more children. Being a farmer with only one son and daughter, if he wanted a second son then who best than his brother, John. I have photographs of John Krause being at the farm but don't know the exact time and year.

The following is information that I was told by my father, Edwin Krause:

This entry of John Krause as the father of Albert is based on the following:

One day in 2001, my father, Edwin, told me that Albert was not his brother but was his half-brother. I didn't say anything, just listened. A week later he said the same thing and this time, I asked him how did he know that. His reply was that his sister, Annie, had told him. As she had seen the hired man creep into the bed-room when my grand-father was away in hospital. I didn't ask anything more and Dad didn't offer anymore explanation.

This seems hardly plausible as Annie would have been only 18 months old and would have been too young to remember this event.

When it came time for Y-Chromosome DNA testing, I didn't include the descendants of Albert at first as I was unsure about the tale that I had been told. Finally, I had Steven Krause tested and his Y-Chromosome results showed that he was a closer match to my Krause line than even what I was as I had a mutation that was unique to myself. If the tale is true then this mutation was either my Grand-father, Father, or me. If the tale is false then the mutation is either my Father or myself.

My Grand-father had been kicked by a horse that hit him in the groin/crotch area. This may have caused great damage and he was unable to sire any more children. Being a farmer with only one son and daughter, if he wanted a second son then who best than his brother, John. I have photographs of John Krause being at the farm but don't know the exact time and year.

Albert Carl Krause and Annetta Viola Zilkie had the following children:

- +19. i. CHARLES ALBERT⁴ KRAUSE (son of Albert Carl Krause and Annetta Viola Zilkie) was born on 18 December 1939 in Moose Jaw, Saskatchewan, Canada. - +20. ii. BETTY ANN IRENE KRAUSE (daughter of Albert Carl Krause and Annetta Viola Zilkie) was born on 25 February 1942 in Moose Jaw, Saskatchewan, Canada. She died on 14 December 2012 in Moose Jaw, SK. She married LIVING WILKINSON (son of George William Wilkinson and Jessie McQuarrie Kerr).

After the death of his wife Ruth in 1982, Ed married Ester Lemke. Ester preceded him in death in 2002. In his spare time, Ed enjoyed fishing, hunting, golfing, bowling, and playing cards. He golfed well into his 90's, finally acquiescing to miniature golf. Ed moved at the age of 101 to Spokane to be near his daughter. He is survived by his children, E. This connection of Ottillia <Sparman> is based on Family finder DNA results and the fact that the decendants of Gottlieb Sparman have the first or second name of Ottillia/Otilia. The descendants of Gottfried Sparman also have the name Ottillia/Otilia which is even more evidence. More research needs to be done on this but it is a start.

Any person who is a descendant of this line may find some photographs of their ancestors in my Unknown photos section. These photos came from my grandmother's home and may shed some light on her relatives.
