## Special Note (DNA Study)

The following is a note that is in the notes section for Juliane, wife of Gottfried Sparman. It is being shown here as well as it pertains to all children of August Zielke and his wife Amelia Sparman. The real question could also be stated as "Is August Zielke the biological father of the children that his is shown to be the father????"

This DNA study is trying to answer this question as well as the maiden name of the wife of Gottlieb Sparman.

To partake in this DNA study, you must have have a DNA result from Ancestry.com as that is the platform that contains the tools to do this study provided you have entered your Pedigree as to how you connect to the Zielke line. If you don't have your Pedigree at Ancestry.com then you can send an email to the address shown at the end of this document with your lineage.

\*\*\*\*\* NOTE:\*\*\*\*\*

The parentage of Juliane is unknown as no information has ever been found for her birth, marriage, death, or other info that indicated who her parents were. The only evidence that is available now is from Autosomal DNA testing. I show shared DNA with people who are descendants of Herman Plath and the only way this can be is that the Plath line is part of my Pedigree. There are two possibilities that I will call situation A and situation B. Situation A is that Juliana wife of Gottlieb Sparman was Juliane Plath, sister to Herman Plath. Situation B is that one of Herman Plath's sons was the father of my grandmother, Alvina Zielke. There is a third possibility and that is that both situation A AND B are True. This is entirely a possibility as first cousins marrying in this family line appears to be very prevalent.

August Zielke and Amelia/Emelie Sparman were married in 1880 and their first three sons were born in the period from 1882-1889 all in Princeton, Green Lake Co., WI, then August and his family moved to Sleepy Eye, Brown Co., MN which was the same area where the two Plath brothers and their families were located. They have been in this area since before 1860. This gives a reason that August Zielke moved to this area. More research is needed and this will only be found by sharing DNA information that proves this situation either TRUE or FALSE, so far, everything points in the direction of TRUE. What is needed is that all the children of August Zielke need to be included in this study to prove situation B as False and Situation A as True. You hold the answers in your DNA results, I have presented mine. This note is aimed at the other descendants of August Zielke that have have their DNA tested at Ancestry.com.

One major item that all of us has to remember is that our matches may hold the answer and these matches must be known to the others in the group as they may recognize lines that we don't. To share our information, a webpage has been developed and is at the following link shown between the "" marks:

"<https://freepages.rootsweb.com/~aek740/genealogy/Shaw-Arnie/Sharing%20Data.htm>"

I will do all the work to analyze your data and see what lines may be new or people that you match but I do not. The only work that you have to do is send me the invitation to view your matches.

You will need this email address to invite me to see your matches.

Thanking you in advance for your cooperation.

# Introduction

This book is an attempt to bring together information on the descendants of John Zuehlke and his wife Wilhelmine.

A major problem in trying to track this family has been the spelling of the last name which varies according to how people thought it should be spelled. My great-grand-father, August Zielke/Zilke used a spelling that was Zilke according to the tombstone at the Bethany Lutheran Church Cemetery (SE 18, Twp. 19, Rnge 2, W-3). However, just recently after much searching, the tombstone of his parents has been found on "Find a Grave" that shows a photograph of the Tombstone which is located at "Zion Evangelical Lutheran Church Cemetery, Neshkoro, Marquette Co., Wisconsin" A photograph of this tombstone is included in this document to show that the surname is spelled as Zuehlke which appears to be the German spelling used by a number of the descendant lines. The notes that show the tracking of the different families shows the spelling as found in the different census and other documents.

Since this is a work in progress, there is missing data in the form of missing dates for births/marriages/deaths and if the age was known then a one year span is used to show the approximate year that the event took place. Missing data for a location is shown as a "?" mark. If anyone knows of information that is more exact then they are asked to please contact the person shown below so that the correct information may be shown in updated versions of this book. If more information is known on descendants of any family then an update it required to keep this tree growing.

An additional chapter has been added on a Zilke line that was in Michigan. This family starts with a Karl Fredrich 'Herman' Zilke and many researchers refer to the John Zuehlke who was in the 1900 census in Wisconsin. Maybe this is an older brother to August. The only way we will be able to prove this is by using autosomal DNA analysis. We already have three persons who have had their Family Finder autosomal DNA tested and now we need at least one person who is a descendant of Herman to be tested to prove this is either TRUE or FALSE.

When sending update information or corrections, do not use the numbering system shown in the book to refer to a family rather than the full names of the parents as shown in this document. The numbering system is only generated when the book is created and means nothing to me when doing updates. Thanks very much.

NOTE:: The parentage of Wilhelmine <Tohm> is unknown. The surname of Wilhelmine that married John Zuehlke is even speculation right now as the marriage info was found on FamilySearch appears to fit for date of marriage, area, when birth of her first children happen(More research required). The connection of Wilhelmine as a sibling of Christoph Tohm is pure speculation and must not be used/copied by others as it is only being done temporarily to see if DNA results can prove it either TRUE or FALSE(AEK 2 Oct. 2021)

Notes for August Zielke:

Entered United States via Port of Baltimore Nov. 18, 1871.

Name changed to Zilkie from Zilke by Son Adolph. Now they go by the name Zilkie. Grave stone at Bethany Lutheran church , Parkbeg, shows the name as August Zilke.

The confirmation certificate for son Emil Julius is shown as Emil Julius Zielke. This indicates that the name has been continually changing from Zielke / Zilke / Zilkie. The Marriage certificate for August and Emilie Sparman also indicate that the name is Zielke as the fathers name is John Zielke and mother Wilhelmine Zolke.

The following document was received from Daniel R. Krause, 6 Nov 2012:

I received your recent e-mail regarding genetic genealogy results. It was interesting to learn that one of your early immigrant descendants had ties to Green Lake County, Wisconsin, which is where I live. I took the opportunity to review the Court House records for information you may not have in your research files. They are:

August Zölke m. Emilie Sparman (Vol. 05-073-057) 7 April 1881, Lutheran Church  
Princeton, Wisconsin, T. A. Moyer, Pastor

Witnesses: William Block and Eddy Manitrey

John Zölke (father), Wilhelmine Zölke

Gottlieb Sparman (father), Julie Sparman

Adolph William Zühlke (birth - Vol. B01-123-02) 17 December 1882

No first name listed on record for infant Zühlke

Father, August, listed as farmer, mother Emilie

Emil Julius Zilkie (birth - Vol. F-277, delayed birth record) 14 April 1889

Henry August Zilkie (no birth record found in Green Lake County)

The Delemma!!!! Was August Zielke the biological father of the children that had his surname? My father, Edwin Krause, told me that August had told him that Elsie, the youngest child, was not his daughter but was fathered by a different person. This is a fact that needs to be verified by DNA testing to prove that the biological father of Elsie was not August Zielke.

In the case of my grand-mother, Amelia Zielke, the second oldest daughter, DNA matches indicate that her father was either Herman Plath or one of his sons.

All of the DNA matches on this line, are via the Sparman connection or via the Plath/Sparman connection. No matches have been found for any of August Zielke's siblings(More research required)

The answers to this might be found from the descendants of the son's of August if they will share their DNA matches with the rest of us to try and break down this brick wall.

Notes for Emilia Ottelia Sparman:

Ref:

1870 Census, St. Marie Town, Green Lake Co., WI, p19/478B, frame 15/18, taken 23 June 1870, age 5

1880 Census, Princeton, Green Lake Co., WI, ED#71, p35/381C,frame 35/44, taken 22 June 1880, age 14

Julia Sparman, age 47, widow, born in Prussia, both parents born in Prussia

Emelie, age 14, born WI

Alvine Thiel, age 17, daughter, divorced, born WI.

The question raised by this data is "Who did August Zielke marry"? From the dates of birth it would appear that he married the older daughter!!!. This is a puzzle, more research required.

The only document that I had that showed where my grandfather, Carl Gustav William Krause, was born was a <https://freepages.rootsweb.com/~aek740/genealogy/116.jpg> Nonresident Alien's Border crossing Identification Card.

Many people are having great difficulty finding the place where Carl Gustav William Krause was from, according to the Hamburg Ship List. The following link shows a section of a map (GrosBlatt 40 Neustettin - Flatow) and GrosBlatt 41 where the two maps join.

<https://freepages.rootsweb.com/~aek740/genealogy/Schlochau.jpg> Map section showing where Branch-One-A was from in West Prussia. The small circular dots with 518 is for the descendants of Johann Krause and 517 for Herman Krause. The other dots are for different Krause families who have proven to be DNA-cousins after 37-Marker Y-Chromosome tests were done on living male descendants of their lines.

Another link with several other maps that show where the <https://freepages.rootsweb.com/~aek740/genealogy/B01-Krause.htm> Branch-One Krause Roots came from in West Prussia may further aid those who are having difficulty in finding this area. Just click on the icon on the right side to view the map or document. The maps included in this summary include the one in the link shown above.

One item that helped me in my search for my Krause ancestry is a bit convoluted but gave an essential piece of information. My grandfather, when asked the name of his father, did not know his name but remembered an Uncle John who had moved away to another state and was never heard from again. When my grandfathers older sister was married, her marriage documents shows that Johann/John Krause was her father. The person who moved to a different state was Herman Krause and his family. Both Herman and my grandfather with his mother and her second husband, Hans Heinrich Wilhelm Knickrehm moved in 1887 to different states, Herman to Wisconsin and Henry Knickrehm to Minnesota and that is how they lost touch with each other. The essential piece of information here was that Herman and John were brothers. Autosomal DNA testing has shown that according to the amount of shared DNA for the descendants of Herman and John, they may have been half-brothers. It is being assumed that they were full brothers.

When my grandfather was asked if there were any Krause relatives that stayed in Germany, he stated that they were coming to America but the ship sunk at sea and all were lost. Hearing this, you didn't ask any more questions.

Ex-Parkbeg man passes MOOSE JAW (Staff) -Charles Krause, 80, of 867 Fifth avenue northwest and formerly of the Parkbeg district, died in hospital here Friday. Funeral service was to be held in Emmanuel Lutheran church Tuesday, followed by a further service at Bethany church and burial in Bethany cemetery, in the Parkbeg district. Mr. Krause was born in Germany and moved to the United States in 1884. He moved to Saskatchewan in 1907, taking up farming northeast of Parkbeg, and later took up a homestead in the Parkbeg district where he farmed until retiring to Moose Jaw in 1943. He was a member of Emmanuel Lutheran church and was councillor of the RM of Wheat-lands No. 163 for several years; trustee of the Elton school district for several years and treasurer of St. Johns Lutheran church at Parkbeg for 18 years. He is survived by his wife; a daughter, Mrs. A. Smart; and two sons, Edwin and Albert, Parkbeg district; nine grandchildren and four great-grandchildren.

She died on 25 March 2000 in Moose Jaw, SK. She married Albert Carl Krause, son of Carl 'Charlie' Gustav William Krause and Alvina Otilia Zilke, on 11 September 1938 in 34-18-2 W3 Thunder Creek P.O. , Parkbeg, Sask. 1926 Census, Wheatlands RM, MooseJaw Dist, SK, Dist 27-35, p4, family#45, age 11

The following is information that I was told by my father, Edwin Krause:

This entry of John Krause as the father of Albert is based on the following:

One day in 2001, my father, Edwin, told me that Albert was not his brother but was his half-brother. I didn't say anything, just listened. A week later he said the same thing and this time, I asked him how did he know that. His reply was that his sister, Annie, had told him. As she had seen the hired man creep into the bed-room when my grand-father was away in hospital. I didn't ask anything more and Dad didn't offer anymore explanation.

---

### Generation 4 (cont.)

This seems hardly plausible as Annie would have been only 18 months old and would have been too young to remember this event.

When it came time for Y-Chromosome DNA testing, I didn't include the descendants of Albert at first as I was unsure about the tale that I had been told. Finally, I had Steven Krause tested and his Y-Chromosome results showed that he was a closer match to my Krause line than even what I was as I had a mutation that was unique to myself. If the tale is true then this mutation was either my Grand-father, Father, or me. If the tale is false then the mutation is either my Father or myself. My Grand-father had been kicked by a horse that hit him in the groin/crotch area. This may have caused great damage and he was unable to sire any more children. Being a farmer with only one son and daughter, if he wanted a second son then who best than his brother, John. I have photographs of John Krause being at the farm but don't know the exact time and year.

Albert Carl Krause and Annetta Viola Zilkie had the following children:

44. i. CHARLES ALBERT<sup>5</sup> KRAUSE was born on 18 December 1939 in Moose Jaw, Saskatchewan, Canada. He died on 27 November 1973 in Moose Jaw, Saskatchewan, Canada. He married LIVING BLISS.
45. ii. BETTY ANN IRENE KRAUSE was born on 25 February 1942 in Moose Jaw, Saskatchewan, Canada. She died on 14 December 2012 in Moose Jaw, SK. She married LIVING WILKINSON.

Brad was born in Eastend, SK, the second son of Gordon and Lois Genert. He grew up on the farm south of Robsart and attended school in Consul, SK. In January, 1979 he began his lifelong passion of repairing vehicles when he started working for his future father-in-law at Sunny's Auto Body Ltd. On July 11, 1981 Brad married his best friend, Shelly Barroby. Three children followed: Crystal (September 11, 1982), Mark (January 3, 1985), and Jesse (February 19, 1987). They were his pride and joy. In May of 2005, Sunny retired and Brad and Shelly purchased "The Shop" where Brad shared his passion and knowledge of vehicle restoration with his son Jesse, niece Kelly, and nephew Jeremy. Brad loved fishing, hunting, gardening, cooking, camping, and restoring vehicles. He especially loved spending time with good friends and nothing was more important to him than his family. settled in the Parkbeg district. Hilda was active in many activities which included: tending her large garden and fruit orchard as many can attest to her canning and preserving abilities that she shared with her family and friends. Later she became involved with the 4H program, curling, sewing, and quilting. The sewing and quilting became a life long hobby as she took classes then returned to her community to pass on her learning and skills to others. In June 1990, Hilda was one of seven women in Moose Jaw to establish the "Prairie Hearts Quilt Guild". This guild was very dear to her heart as well as the many friends that she made while making beautiful quilts. These quilts, quillos, and baby blankets have been enjoyed by many including her children, grandchildren and great-grandchildren. Our sincere thanks to the staff of Chateau St. Michael and First and Second floors at the Moose Jaw Union Hospital for their special care of our mother, and for the support shown to the family during her illness. ## Generation 4 (cont.)

The following is information that I was told by my father, Edwin Krause:

This entry of John Krause as the father of Albert is based on the following:

One day in 2001, my father, Edwin, told me that Albert was not his brother but was his half-brother. I didn't say anything, just listened. A week later he said the same thing and this time, I asked him how did he know that. His reply was that his sister, Annie, had told him. As she had seen the hired man creep into the bed-room when my grand-father was away in hospital. I didn't ask anything more and Dad didn't offer anymore explanation.

This seems hardly plausible as Annie would have been only 18 months old and would have been to young to remember this event.

When it came time for Y-Chromosome DNA testing, I didn't include the descendants of Albert at first as I was unsure about the tale that I had been told. Finally, I had Steven Krause tested and his Y-Chromosome results showed that he was a closer match to my Krause line than even what I was as I had a mutation that was unique to myself. If the tale is true then this mutation was either my Grand-father, Father, or me. If the tale is false then the mutation is either my Father or myself. My Grand-father had been kicked by a horse that hit him in the groin/crotch area. This may have caused great damage and he was unable to sire any more children. Being a farmer with only one son and daughter, If he wanted a second son then who best than his brother, John. I have photographs of John Krause being at the farm but don't know the exact time and year.

1926 Census, Wheatlands RM, MooseJaw Dist, SK, Dist 27-35, p4, family#45, age 11

The following is information that I was told by my father, Edwin Krause:

This entry of John Krause as the father of Albert is based on the following:

One day in 2001, my father, Edwin, told me that Albert was not his brother but was his half-brother. I didn't say anything, just listened. A week later he said the same thing and this time, I asked him how did he know that. His reply was that his sister, Annie, had told him. As she had seen the hired man creep into the bed-room when my grand-father was away in hospital. I didn't ask anything more and Dad didn't offer anymore explanation.

This seems hardly plausible as Annie would have been only 18 months old and would have been too young to remember this event.

When it came time for Y-Chromosome DNA testing, I didn't include the descendants of Albert at first as I was unsure about the tale that I had been told. Finally, I had Steven Krause tested and his Y-Chromosome results showed that he was a closer match to my Krause line than even what I was as I had a mutation that was unique to myself. If the tale is true then this mutation was either my Grand-father, Father, or me. If the tale is false then the mutation is either my Father or myself.

My Grand-father had been kicked by a horse that hit him in the groin/crotch area. This may have caused great damage and he was unable to sire any more children. Being a farmer with only one son and daughter, if he wanted a second son then who best than his brother, John. I have photographs of John Krause being at the farm but don't know the exact time and year.

The only document that I had that showed where my grandfather, Carl Gustav William Krause, was born was a <a href="https://freepages.rootsweb.com/~aek740/genealogy/116.jpg"> Nonresident Alien's Border crossing Identification Card. </a>

Many people are having great difficulty finding the place where Carl Gustav William Krause was from, according to the Hamburg Ship List. The following link shows a section of a map (GrosBblatt 40 Neustettin - Flatow) and GrosBlatt 41 where the two maps join.

The other dots are for different Krause families who have proven to be DNA-cousins after 37-Marker Y-Chromosome tests were done on living male descendants of their lines.

One item that helped me in my search for my Krause ancestry is a bit convoluted but gave an essential piece of information. My grandfather, when asked the name of his father, did not know his name but remembered an Uncle John who had moved away to another state and was never heard from again. When my grandfathers older sister was married, her marriage documents shows that Johann/John Krause was her father. The person who moved to a different state was Herman Krause and his family. Both Herman and my grandfather with his mother and her second husband,

Hans Heinrich Wilhelm Knickrehm moved in 1887 to different states, Herman to Wisconsin and Henry Knickrehm to Minnesota and that is how they lost touch with each other. The essential piece of information here was that Herman and John were brothers. Autosomal DNA testing has shown that according to the amount of shared DNA for the descendants of Herman and John, they may have been half-brothers. It is being assumed that they were full brothers.

When my grandfather was asked if there were any Krause relatives that stayed in Germany, he stated that they were coming to America but the ship sunk at sea and all were lost. Hearing this, you didn't ask any more questions.

1926 Census, Wheatlands RM, MooseJaw Dist, SK, Dist 27-35, p4, family#45, age 11

The following is information that I was told by my father, Edwin Krause:

This entry of John Krause as the father of Albert is based on the following:

One day in 2001, my father, Edwin, told me that Albert was not his brother but was his half-brother. I didn't say anything, just listened. A week later he said the same thing and this time, I asked him how did he know that. His reply was that his sister, Annie, had told him. As she had seen the hired man creep into the bed-room when my grand-father was away in hospital. I didn't ask anything more and Dad didn't offer anymore explanation.

This seems hardly plausible as Annie would have been only 18 months old and would have been too young to remember this event.

When it came time for Y-Chromosome DNA testing, I didn't include the descendants of Albert at first as I was unsure about the tale that I had been told. Finally, I had Steven Krause tested and his Y-Chromosome results showed that he was a closer match to my Krause line than even what I was as I had a mutation that was unique to myself. If the tale is true then this mutation was either my Grand-father, Father, or me. If the tale is false then the mutation is either my Father or myself.

My Grand-father had been kicked by a horse that hit him in the groin/crotch area. This may have caused great damage and he was unable to sire any more children. Being a farmer with only one son and daughter, if he wanted a second son then who best than his brother, John. I have photographs of John Krause being at the farm but don't know the exact time and year.
