Family Research NewsLetter

Greetings to fellow Evilsizer/Evilsizor family members, researchers, and other interested parties,

This newsletter is a brand-new idea, designed to help all researchers share data and organize our information into a common pool. Anyone is welcome to share and contribute information, their family charts, photos, or family memories, favorite family recipes. As you can see we are interested in all aspects of our family and its history.

Many believe we are all related if we can just go back far enough. Evilsizer/Evilsizor etc, is an uncommon name, thus we will attempt to link all Evilsizer's together. We have researchers all across the USA, from NY to CA, and several sprinkled among the midwest.

Ultimately, we hope through all of this work the Evilsizer researchers can combine our efforts and print a book, sort of a "Genealogical Profile of the Evilsizer/Evilsizor Name." This would be available to all who contributed, and to our descendants. It is also our desire to have our family's data entered into the LDS computer file for other "lost" family members to tap into.

Any information can be mailed to:
