HOME

Andrew Engleman to wife Anna Maria Evilsizer

Eldorado County California July the 20th 1851

Dear wife,

I once more by the Mercy of God embrace the opportunity to inform you that I am still well and in good health and spirits. Hoping that those few lines may find you and the children enjoying the same or similar so.

I will now let you know that me, and Lee and Isaac are still mining to gather yet and expect to as long as we stay in California. We are still in Misouri Kanion yet where we have bin for about eight months out in the mountains about twelve miles from George town and about four miles from a little town called Gray Eagle City which is on what is called the middle fork of a Merican river. We have our provisions packed to us from a trading post about one mile from where we are at work. We have not bin out of this Kanion but once or twice farther than the trading post since we have bin here.

As we have our letters brought to this trading post by express which goes from the MidleAmerican river to Coloma Sacramento and San Francisco for letters. This is the surest way to get our letters that is all, though it is very few that I have ever got from you. Not one word have I ever seen or heard from you except from my Dear father whom I never shall forget and one letter that July Ann rote to Isaac. Mentioned that you wanted me to come home which is every thing that I ever have heard from you. I Hope that you have

not forgotten me. Many is the times that I have thought of you and the dear little children with tears trinkling down my face. Many are the letters that I have rote to you and Jacob and Martin and Abraham and never have received but one from any of you and that was rote November the 6th 1850. But whether that is all you have rote or not I can't tell but I hope that it is not. It is all that I have received as yet from any of you. I will now let you know that I received one on the 14th of this month from my dear father rote May the 12th 1851 which gave me much sadisfaction to hear that they are all well and that he had bin out to Crawford last week and found you all well at that time and doing well and that you looked better than he ever saw you and that the children were all well at that time but that they had all had the hoop-ing cough and that Thomas had had the aracles but was now going to school which gave me much sadisfaction. I have rote to you in two of my letters before to send them all the chance you have. He rote that young son of mine was the finest that you ever have had and that you call him Isaac Andrew which is a great big name. He also informed me that Jacob had lost their son. Jesse died with Croop which I am very sorry to hear but for them not to greave too much for he is better off than any of us and that they shall try to meet him where parting shall be no more. I am very sorry to think that I never will see Mother in law any more in this world but I hope to meet her in heaven. Isaac is very much hurt to think that he will see

LETTER HOME (CONT)

his dear mother no more in this world but he hopes to meet her in heaven where parting shall be no more. You need not think that because we are in a farin land that we are like the natives. Have no care nor fear many is the time that we think of our future days to come. I now will let you know something about our mining. We are runing what is called a long torn which we can make an average of six dollars a day each which is tolerable good wages at this time in California these days. I have not made a great deal as yet. I have got but three pounds of gold at this time but I think if I have my health till fall that I can make that much more which will sadisfy me for the trip to California

I expect to come home this winter sometime if God willing and meet you face to face and if not I hope to meet you in heaven where meeting shall be to part no more. A few lines to Martin. I would like to know what is the reason that you don't rite to me. Have you forgotten me intirely or what is the matter. I have rote two letters to you and never got any answer from you yet. If you get this I want you to rite to me as soon as you get it and rite about all the neighbors and relatives, how they are doing and getting along in the world and whether there are any improvements up in the neighborhood and so on and so forth, about crops fruit and so on. Tell granny Wymon that I saw Charles Dyer last Wednesday and that he is well and harty and in good spirits and has got six or seven hundred dollars in gold now and that he thinks he will
