Letter from the Editor

Previous volumes of FFRU have been dedicated to the Franklins of Georgia in various ways, but the actual census has never been presented here before. In Volume 8, the 1820-1860 Census Indexes were presented, and a transcription of the 1830 Census was published in Volume 13. Other volumes have had articles on Georgia marriages, etc.

I have cross-checked all of this data and created over 300 footnotes to help in your research. The usual guideline of limiting the volume to about 50 pages has been waived to allow the 1870 census to be included. I have included marriage information from other sources, where applicable.

You will note that although the 1880 census is not included in this volume, there are numerous references to it, and I have transcribed it, also - I just don't have enough space to include it here.
