

Grant DNA Project  
Participant Connections by Invitation  
July 20, 2009

The following is a list of participants in the Grant DNA Project and their known family members who joined at the participant's invitation or encouragement. These known relationships do not include DNA-discovered family connections.

The purpose of this exercise is to identify mismatches in alleles of known family members, such as father-son, brothers, uncle-nephews, etc.

To date, we have 43 of the 165 participants listed below and hope that others will respond to our request.
