Based on all of the below sources and when they differ using what different sources said.

C. H. = Courthouse death entry: I = from 1945 paper record: II – IV = From Salem MM and Cedar Creek MM Microfilmed

Records: II = Salem Death to 1855, III = Cedar Creek Death to 1885, IV = Cedar Creek Membership 1899-1914:

V = Cemetery books 1 & 2 1904 – present: *Italics - data added from headstone: *- no stone found*

I have spent many hours plotting out the south side and taking pictures of old stones and researching old microfilms and books. Am sure there are still holes to fill and errors. Found one new stone with information in July 2010 -Alva C Hickman, infant son, of J. Q. & M. J. Hickman-soft brown sandstone hand written and clear to read. I have just added that picture to my website.

Row 11 is where Free Burials were placed, based on the cemetery books V-1-2 and a map found in V-1. Many of these burials were around 1930-1940. Our record books were also poorly kept during that same period. My mother* tried to draw the plat of the North side and East side of Driveway in 1951. “October 31, 1951 - Whereas, we have found some errors to exist in the Cedar Creek Cemetery Books, we, the Trustees, met and endeavored to draw a new plat map of the new part east of the draw ...”

Trustees

G. Dewey Hodson

Harry Cooper

Herman Hallowell

*Minutes and plat were written in her hand writing, even though she was not a trustee, but the wife of one. :-)

My dad was a trustee from 1949 - 1977.

I also presume an older plat map existed at that time that does not now.
