

Hops.

The market has been dull, weak, and on a decline all the week. Samples are freely offered, and a few sales have taken place at from 20 to 25c, which are the extremes. About 500 bales have been bought this week. Generally the large growers are still firm, most of the sales being for the smaller lots, though one or two lots of 40 bales or over have changed hands. Dealers have been able to get all the hops they wished at these figures, and there seems to be more sellers than buyers. The total shipments from September 1 to Tuesday night, November 22, are 15,355 bales. Shipments for the week ending Tuesday November 22:

Wednesday, November 16	125
Thursday	130
Friday	135
Saturday	140
Sunday	145
Tuesday	150
Total	1,565

UTICA HOP REPORT.

Dullness has prevailed in the hop market of Utica during the whole week. About 350 bales have been purchased by our buyers, the prices paid ranging from 23 to 25c, there being one small lot at each of the extreme figures. The prevailing price was 25c, with a few sales at 24c, and still fewer at 26c. Twenty bales of olds were taken at 16c. It is thought that the market has been injured by the attempts of growers to market their own goods in New York. It has created a weaker tone than otherwise might have ruled, being evidence that there was some anxiety to dispose of stock. In general, however, there is not a free offering in the country at present prices, and the stand-off position of both buyers and growers is a dull market with prices more or less nominal.—Herald, Nov. 22.

NEW YORK MARKET.

Prepared expressly for the Times by Emmet West, dealer in hops, 100 Pearl Street, New York. Consignments respectfully solicited.

New York, Nov. 18. The receipts show a further material decrease from last week, but the exports have increased 500 bales, the shipments for the week being 1,255 bales. An important feature in the arrival here of 309 bales German Hops; these bales average 40 lbs. each, and therefore take the place of 618 bales American Hops. We notice quite an influx of growers upon the market this week trying to sell their hops direct; we examined the pulse of one grower, or rather speculator, who had been paying 25 to 28c in the interior for what we would term low fair grade, and found it run very high. The presence of growers here is always proof positive of dull markets in the interior. Our exchanges still quote 30c, as the price paid in the country for choice hops. The same figure can be obtained here for a strictly choice article, but some are extremely scarce. We still adhere to the opinion that unless a change for the better takes place between now and Christmas, we will not be likely to see any improvement either in the demand or price until after the holidays have come and gone.

RECEIPTS, EXPORTS AND IMPORTS.

Receipts for the week (officially reported on Chicago):

Total receipts for the week	1,113
Total receipts for the season 1881	43,120
Total receipts for the season 1880	45,475
Report clearances for the week to Europe	1,263
Total exports for the season	13,878
Total exports for the season last year	10,881
Total imports for the season	1,162
Total imports for the season last year	1,162
