

Creating a Family History Website:

5. Tables

Robert Raymond
Updated: 10 June 2006

Empty Table (2 rows, 2 columns)

```
<table>
  <tr>
    <td>Insert row 1, column 1 cell contents here</td>
    <td>Insert row 1, column 2 cell contents here</td>
  </tr>
  <tr>
    <td>Insert row 2, column 1 cell contents here</td>
    <td>Insert row 2, column 2 cell contents here</td>
  </tr>
</table>
```

Purpose	HTML Tags and Attributes
<code><table></code> tag attributes	
Table without border	<code><table></code>
Table with border	<code><table border=1></code>
<code><td></code> tag attributes	
Vertical alignment	<code><td valign=top></code> <code><td valign=middle></code> <code><td valign=bottom></code>
Horizontal alignment	<code><td align=left></code> <code><td align=center></code> <code><td align=right></code>
Other	
Use non-breaking space to separate columns	<code><td >Short column &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; </td></code>

Add Table Example to Template

Simple.html (version 17)

```
<html>
<head>
<meta http-equiv="Content-Type" content="text/html; charset=iso-8859-1">
  <title>Replace with page title</title>
  <meta name="Author" content="Your Name">
  <meta name="keywords" content="Replace, with, page, keywords">
  <meta name="description" content="Replace with page description.">
  <link rel="stylesheet" type="text/css" href="mystyles.css">
  <script language="javascript" src="myscript.js"></script>
</head>
<body>
  
  <h1>Replace with page title</h1>
  <p>Replace with page description.</p>
  <hr>
  <h2>Section Title</h2>
  <p>Introduce this section in this paragraph.</p>
  <ul>
    <li><b>Bold List Item</b></li>
    <li><i>Italic List Item</i></li>
    <li><u>Underline List Item</u></li>
  </ul>
  <h2>Another Section</h2>
  <p>Introduce this section in this paragraph.</p>
  <h3>A Sub-Section Title</h3>
  <p>Introduce this sub-section in this paragraph.</p>
  <table border=1>
    <tr>
      <td>Insert row 1, column 1 cell contents here</td>
      <td>Insert row 1, column 2 cell contents here</td>
    </tr>
    <tr>
      <td>Insert row 2, column 1 cell contents here</td>
      <td>Insert row 2, column 2 cell contents here</td>
    </tr>
  </table>
  <hr>
