To  
my mother and Father

at the turn of the road the grass is green,  
and the brook goes twinkling by,  
washing the smooth-worn stepping-stones,  
and glimpsing the summer sky.

at the turn of the road I pause today,  
and gaze with a glad surprise  
at the dear old spot I love so well,  
while the quick tears fill my eyes.

For over the hill is home - my home!  
and welcome and peace and rest;  
and I hasten on to its shady door  
as the bird flies to its nest!

## Chapter I Autobiography of Wilma Haas

In the year of 1918 on the 14<sup>th</sup> day of April there came into this world a baby girl. As you can guess this baby. In 1918 I fell ill with influenza. As my father was in the navy I was taken to a Red Cross Hospital. Where I received the greatest care. If it had not been for those nurses I would not be here to tell the story. During the course of years I had ~~two~~ other sisters. When about eleven months old I first walked. I progressed rapidly from then on.

As the years went by I <sup>had</sup> my share of sickness and of Health. And still have. Everytime there was to be a play or some entertainment I was in some way not quite able to join in on it.

In Elementary school I progressed rapidly and never failed to get a promotion. and expect to get through with passing grades. In Junior High school I have enjoyed myself and also learned my lessons. I succeed as

well in high school as I did in  
elementary and Junior high I will  
be well pleased. I have told  
my history in a brief form and  
you may not be able to understand  
it as many times I had to hurry.

## Chapter 2 My Interests

### A. My Hobby

My hobby is outdoor exercise such as hiking, swimming, skating, basketball, etc. This tends to make me feel and makes my health better. I also enjoy it and would like to do them everyday. I will tell about one day in which I did some of these things.

When I was in the sixth grade the Girl Reserve Club planned to go on a hike. We met after school, with the different articles we were to take. We walked about a mile, out to Parkmore Bridge. Some stopped at Rich-a-wee to get sandwiches. When we got there we all went to work. Miss Elland showed us how to make a girl Reserve campfire. We baked potatoes and apples and weiners. After we had eaten we went farther down the river. We took our shoes and stockings off and went in wading. Some of the girls slipped and fell

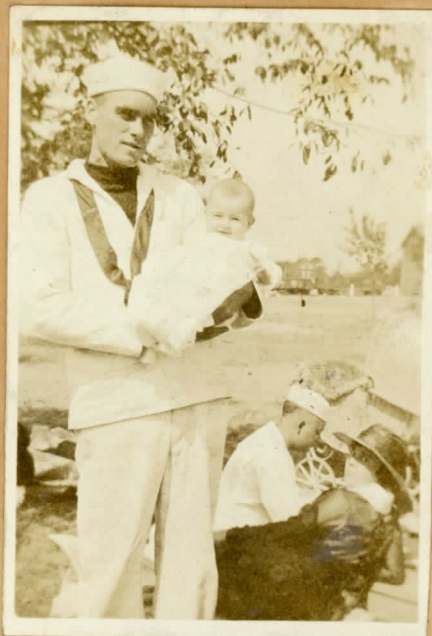

and as a result got rather wet  
We later returned to the place where  
had eaten our supper. I found  
my hat was gone. We looked  
every place for it, but it could  
not be found. We of course walked  
home. When we got home we were  
very tired as we had been  
very active. Although we were  
very tired we were feeling fine  
as we had enjoyed ourselves  
thoroughly.

## Chapter 5 My Voca

When about eight years old I wanted to be a school teacher. I suppose I wanted to be a teacher because they were great in my eyes. But after helping teachers it soon came to the conclusion I would rather try something else.

For awhile I wanted to be a nurse but when I found the done I decided otherwise.

I have always wanted to play the piano and sing but was never able to make much progress and as a result had to look around for something more suitable.

After searching for awhile I found I would like to be a diction. I studied and learned all I could about it and I think I can meet the requirement. I am now planning to be a diction as I prefer it to all the others.

## chapter 6 What My Health Depends

1. I must have diets which are well balanced and rational

2. I must have as much rest as possible as a person who is growing must have plenty of rest

3 Fresh air makes your blood more pure and the organs of the body function more readily.

4 Exercise is the best way to get rid of body poisons but this must not be overdone

5. Cleanliness means all in making friends if you are not clean how many friends do you have? If you are clean and nice also you have many friends
