Note: Write to the LA State Archives at the address above for copies of parish birth records. During early years when birth certificates were not legally required, some births may not have been registered. If your name should be on this list, but it is not, the State Archives does not have a record of it.

To see each entry on a single line, set your page layout to custom, landscape orientation, with page width at 22".

Note: We have tried to keep each name on a single line. However, due to quirks in Excel and Word, the page width had to be shortened and therefore a few very long names had to be divided onto two lines in this file. If you want to convert this text file to Excel or another database, you must manually put the names back on a single line or else you will lose track of the second half of the name.

In this file, there is one very long names that had to be divided:
